

The Search for Quantum Gravity:

CDT & Friends - *Jubilee edition*

January 25-27, 2023

📍 Lindenberg cultuurhuis, Nijmegen, The Netherlands

<http://indico.imapp.ru.nl/e/102/>
email: HEP@ru.nl

Scope: Aspects of quantum gravity, related in one way or the other to Causal Dynamical Triangulations (CDT), a non-perturbative approach towards the gravitational path integral.

INVITED SPEAKERS

J. Ambjorn (Niels Bohr I. & Radboud U.)

D. Anninos (King's College)

M. Aspelmeyer (U. Wien)

F. Barbero (IEM-CSIC, Madrid)

G. Barnich (ULB, Brussels)

D. Benedetti (École polytechnique)

M. Blencowe (Dartmouth College)

M. Bojowald (Penn State U.)

S. Carlip (UC Davis)

B. Dittrich (Perimeter I., Waterloo)

J. Donoghue (U. Mass. Amherst)

F. Dowker (Imperial College)

B. Durhuus (U. Copenhagen)

D. Giulini (U. Hannover)

A. Görlich (Jagiellonian U., Krakow)

G. 't Hooft (Utrecht U.)

I. Khavkine (Czech Ac. Sciences)

M. Niedermaier (U. Pittsburgh)

R. Percacci (SISSA, Trieste)

M. Reuter (U. Mainz)

M. Sakellariadou * (King's College)

L. Smolin (Perimeter I., Waterloo)

S. Surya (Raman Research I.)

T. Thiemann (FAU, Erlangen-Nürnberg)

* to be confirmed

Scientific organizers:

B. Bonga, T. Budd, B. Krishnan, F. Saueressig

Supported by: **Radboud University Nijmegen**
