

Session Program

27-28 Oct 2025

Belgian-Dutch Gravitational Wave Meeting 2025

LISA community day

Huygensgebouw, HG00.304

Tuesday 28 October

14:00

LISA community day: LISA - ET synergies in data analysis

Session | **Location:** Huygensgebouw, HG00.304

14:00–14:15

A roadmap of gravitational wave data analysis

Speaker

Lorenzo Speri

14:15–14:30

LISA - ET synergies (in data analysis): intro

14:30–15:00

LISA - ET synergies (in data analysis): discussion/activity

15:00–15:15

LISA - ET synergies (in data analysis): summary

15:15–15:30

LISA community day: report on parallel sessions

15:30

14:00

LISA community day: Multimessenger science (with LISA)

Session | **Location:** Huygensgebouw, HG00.307

14:00–14:15

Transient discovery with the GOTO (Gravitational-wave Optical Transient Observer) Network

Speaker

Duncan Galloway

14:15–14:30

Multimessenger science (with LISA): intro

14:30–15:00

Multimessenger science (with LISA): discussion/activity

15:00–15:15

Multimessenger science (with LISA): summary

15:15
